

Report

I was sponsored by TEQIP-II cell, Guru Nanak Dev Engineering College, Ludhiana to attend workshop on “ABET Accreditation and Program Assessment” at JW Marriot New Delhi, on 30th September, 2015. Expert lectures were delivered by the leading experts in this domain. I got the opportunity to learn in depth about the ABET accreditation process and associated self-study report. The ideas and methods presented and discussed in the workshop will help guiding PG students and other departments of the Institute. Moreover the experience in the workshop will help in organizing national/international events at our Institute in a better way. I thank the TEQIP –II cell for funding my visit and helping me get this exposure.
