

## **Tour Report**

I was sponsored by TEQIP-II cell, Guru Nanak Dev Engineering College, Ludhiana to attend workshop on “Case Study Teaching & Writing” held at Indian Institute of Technology, New Delhi from 14<sup>th</sup> April to 17<sup>th</sup> April, 2016. Expert lectures were delivered by the leading academicians in this domain. I got the opportunity to learn about how to write cases, case writing proposal, data collection and protocols, drafting the case and using cases in class. The instruction material comprised of actual case study which included case study of Mayaderm, Kamdhenu Dairy, Jain Irrigation system etc. The usage of case study can act as very good teaching pedagogy where in students can be presented with a case and they can place themselves in the role of the decision-maker as they read through the situation and identify the key issues being faced by them in different roles. Moreover the experience in the workshop will help in organizing national/international events at our Institute in a better way. I thank the TEQIP –II cell for nominating and helping me get this exposure.

(Dr. Akshay Girdhar)

Associate Professor (IT)
