

I attended an International conference on “Advances in Chemical Engineering” held at Chemical Engineering Department in IIT Roorkee from February 22-24,2013. My paper titled “Investigation on Stratification in a Packed Bed Solar Energy Storage System” was accepted in the session of Energy Engineering. The paper was co authored by Dr. R.P.Saini and Dr. J.S. Saini of IIT Roorkee. I presented my paper on February 23, 2014 in the session. The contents of the paper were well appreciated by the session chair and the audience. Eight papers were presented in the field of energy engineering.

I thank TEQIP cell GNDEC Ludhiana for sponsoring me for attending and presenting my paper in the conference.
