

Guru Nanak Dev Engineering College, Ludhiana
Department of Civil Engineering

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

Program: ☒ B.Tech ☐ M.Tech.

S. No	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.			✓		
2.	The units/sections in the syllabus are properly sequenced.				✓	
3.	The curriculum has good balance between theory and practical.					✓
4.	Course content is covered by corresponding reference books/materials.			✓		
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.			✓		
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.			✓		
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.			✓		

Any other suggestions to improve the curriculum:

Electric Subjects really widen the degree program.

Your details (Optional):

- i) Name:
- ii) University Roll no.:
- iii) Signature with Date:

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

Program: ☒ B.Tech ☐ M.Tech.

S.No.	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.			✓		
2.	The units/sections in the syllabus are properly sequenced.				✓	
3.	The curriculum has good balance between theory and practical.				✓	
4.	Course content is covered by corresponding reference books/materials.				✓	
5.	The syllabus generated interest in the subject area.					✓
6.	The course content of the subjects increased your knowledge and perspective.				✓	
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.					✓
9.	The practical courses give you an effective hands-on experience.				✓

Report 2018

- 80 % of the students have said that the syllabus is competent enough in the modern competitive era.
- Regarding the syllabus being properly sequenced nearly 78 % agreed.
- About 80% of students found that the syllabus was very well balanced between theory and practical.
- With respect to the course content being covered by corresponding reference books , nearly 85% marked it very good.
- Approximately 72% of student showed that their interest in particular subject was generated with content of course or syllabus
- More than 83% of students have said that the course content of the subject has enhanced their knowledge and perspective.
- Whether the curriculum is equipped with necessary technical skills required by the industry , approximately 80 % of students found the curriculum was helpful.
- Regarding the elective offered are in consonance with technological advancements nearly 85 % strongly agreed.
- The nearly 85 % student showed that the practical course give them an effective hands on experience
- With the laboratory experiments , 92 % student found enhanced you understanding of the concepts and enabled them to relate theory to practice.

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.
Please mark a tick '✓' in the appropriate cell.

Program: B.Tech ✓ M.Tech.

No.	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.			✓		
2.	The units/sections in the syllabus are properly sequenced.				✓	
3.	The curriculum has good balance between theory and practical.			✓		
4.	Course content is covered by corresponding reference books/materials.			✓		
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.			✓		
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.			✓		
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.			✓		

✓ other suggestions to improve the curriculum:

Teacher Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S.No.	Question	1	2	3	4	5
1.	Syllabus is need based with respect to the recent advancements.				✓	
2.	Aims and objectives of the syllabi are well defined and clear to teachers and students.				✓	
3.	The books prescribed/listed as reference materials are relevant and updated.					✓
4.	The curriculum has good balance between theory and Lab.					✓
5.	The course content of the subjects improved student's knowledge and perspective.					✓

Any other suggestions to improve the curriculum:

File handling should be removed.

Your Details:

Alumni Feedback on Curriculum

2017-2018

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick 'v' in the appropriate cell

S. No	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum contribute towards finding solutions to real life/practical problems in industry through the use of technical knowledge?				✓	
3.	Does the curriculum involve reasonable practical and laboratory courses to inculcate skills for analysis and design?			✓		
4.	How do you rate the curriculum with respect to courses on professional ethics and behavior?				✓	
5.	How do you rate the curriculum in terms of developing written and oral communication abilities in students?			✓		
6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?				✓	
7.	Overall satisfaction for the current program in meeting its educational objectives.					✓

Any Comments:

P.D.C must be arranged

Any Comments:

The overall curriculum is quite evenly spreaded. But there should be new courses to be added like AI, IoT, Emerging Technologies which are actually quite in hype now these days. Adding these in regular curriculum will boost the overall performance of student as well as for the concerned dept.

Any Comments:

Python language can be included or topic like e-commerce can also be included.
Broadening educational areas into subjects like Medicine, Finance, Architecture etc then collaborative approach in different fields with technology as backbone.

Alumni Feedback on Curriculum

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S. No.	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum contribute towards finding solutions to real life/practical problems in industry through the use of technical knowledge?			✓		
3.	Does the curriculum involve reasonable practical and laboratory courses to inculcate skills for analysis and design?					✓
4.	How do you rate the curriculum with respect to courses on professional ethics and behavior?				✓	
5.	How do you rate the curriculum in terms of developing written and oral communication abilities in students?					✓
6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?				✓	
7.	Overall satisfaction for the current program in meeting its educational objectives.					✓

Any Comments:

* Python language can be introduced.
 * E-commerce topics can be included.

Any Comments:

Practical Knowledge Specially programming should be more emphasized, writing programs on a sheet of paper doesn't make sense, it should be done practically and on a laptop and project building should be taught, like how to make a java project and android project etc. because of company requirement

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

Program: ☐ B.Tech ☐ M.Tech.

S.No.	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.				✓	
2.	The units/sections in the syllabus are properly sequenced.					✓
3.	The curriculum has good balance between theory and practical.					✓
4.	Course content is covered by corresponding reference books/materials.					✓
5.	The syllabus generated interest in the subject area.					✓
6.	The course content of the subjects increased your knowledge and perspective.				✓	
7.	Curriculum equipped you with necessary technical skills required by the industry.					✓
8.	The electives offered are in consonance with the technological advancements.					✓
9.	The practical courses give you an effective hands-on experience.					✓
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.					✓

Report 2017

- The students have been highly satisfied regarding the syllabus being competent enough in the modern competitive era.
- Regarding the syllabus being properly sequenced nearly 90% were agreed.
- The major section of students found that the syllabus was very well balanced between theory and practical.
- With respect to the course content being covered by corresponding reference books, nearly 85% marked it very good.
- Approximately 75 % of student showed that their interest in particular subject was generated with content of course or syllabus
- More than 85% of students have said that the course content of the subject has enhanced their knowledge and perspective.
- Whether the curriculum is equipped with necessary technical skills required by the industry, the 84% of students found the curriculum was helpful.
- Regarding the elective offered are in consonance with technological advancements more than 80% agreed.
- The 89% student showed that the practical course give them an effective hands on experience
- With the laboratory experiments, 92 % student found enhanced you understanding of the concepts and enabled them to relate theory to practice.

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

Program: ☒ B.Tech ☐ M.Tech

S.No	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.				✓	
2.	The units/sections in the syllabus are properly sequenced.				✓	
3.	The curriculum has good balance between theory and practical.				✓	
4.	Course content is covered by corresponding reference books/materials.					✓
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.					✓
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.					✓
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.					✓

Any other suggestions to improve the curriculum:

Practicals must be elaborated.

Your details (Optional):

- i) Name: Salvi Bhaloo
- ii) University Roll no.: 1808284
- iii) Signature with Date: Salvi Bhaloo

Alumni Feedback on Curriculum

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates highest satisfaction.

Please mark a tick '✓' in the appropriate cell

S. No	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.					✓
2.	Do our students have the ability to find solutions to real life/practical problems in industry through the use of technical knowledge?					✓
3.	Do our students have reasonable practical and laboratory skills for analysis and design?					✓
4.	How do you rate our students with respect to professional ethics and behavior?					✓
5.	How do you rate our students in written and oral communication abilities?					✓
6.	Do our students have ability and will to engage in a process of continuous learning to meet the current job requirements?					✓
7.	Overall satisfaction for the current program in meeting its educational objectives.					✓

Alumni Feedback on Curriculum

Dear Sir/Madam,

It has been 10 months since you graduated with a degree in IT. We hope you are doing well and enjoying your life. We are glad that your stay with CNDEC has helped you in the process of learning, growing and in taking up challenging careers. We are sure you were satisfied with the preparation you took in the first two years to make it a better place for you through responsible and active use of technology.

We seek your feedback on attainment of the student outcomes (the knowledge, skills, attitudes that you developed during the course of study at CNDEC) and subsequent work experience of 1-4 years. Please answer the following questions on the scale of 1 to 5 where 1 indicates 'not satisfactory' and 5 indicates 'highly satisfactory'.

Please mark a tick '✓' in the appropriate cell

S.No	Question	1	2	3	4	5

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

Program: B.Tech ✓ M.Tech.

S. No	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.				✓	
2.	The units/sections in the syllabus are properly sequenced.					✓
3.	The curriculum has good balance between theory and practical.				✓	
4.	Course content is covered by corresponding reference books/materials.					✓
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.					✓
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.					✓
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.					✓

Any other suggestions to improve the curriculum:

Good

Survey (Electrical Engineering Department)

Graduate Survey

1. How well prepared are you in applying the knowledge of Mathematics and Sciences in solving engineering problems?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

2. How do you rate the facilities (laboratories, instrumentation, computational) in terms of conducting & designing experiments?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

3. Was competent technical support available during lab?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

4. Can you apply the knowledge gained in providing the technical solutions within the realistic constraints relevant to environmental, social, political, ethical, health and safety, and sustainability?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

5. How do you rate the program in developing your skills in multi-disciplinary work?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

6. How often can you identify, formulate and solve engineering problems?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

7. How competent you find yourself in understanding professional and ethical issues?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer:

8. How do you rate your communication skills?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

9. How do you rate your graduate program in terms of developing understanding of engineering solutions in solving global, economic, environmental, and societal issues?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

10. Are you planning for higher studies?

Answer: 1 for Yes and 0 for No

Your answer

11. How do you rate your knowledge of contemporary issues?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

12. How well you have become conversant to use modern tools in solving engineering problems?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

13. Does the graduate program meet your expectations in analyzing a problem and framing a computing solution for that?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

14. Does this program meet your expectations to provide sustainable solutions into actual user environment?

Rate from 1 to 5, 1= lowest and 5= highest

Your answer

15. Any suggestions for the improvement of the program.

No suggestion

A humble request and suggestion for the management that a more good efforts for the students job and placements enhancements in the core firms, rather than just IT based sectors, and I more thing as request or a suggestion that at least for every student should have employment (if not on the higher grade pay scale, then at least acc to their percentage & their caliber) like foreign and other state universities, every student got placements according to their caliber, so that student will not have to struggle after degree completion for 1-2 years, as in everything is best regarding the education program, department teachers support as they enhanced polished our skill, our personality and every effort to make our future bright in this growing society and system.

Students Feedback on Curriculum

This questionnaire is intended for current students seeking to provide feedback on the curriculum. The feedback provided by students is an important feedback for improvement of the curriculum. Please provide the following questions on the basis of Data Science I indicates, the satisfactory was achieved. (Please tick the box)

Please mark a tick "✓" in the appropriate cell.

Program: ☐ B.Tech ☐ M.Tech

S.No	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.					✓
2.	The units/sections in the syllabus are properly sequenced.					✓
3.	The curriculum has good balance between theory and practical.					✓
4.	Course content is covered by corresponding reference books/materials.			✓		
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.				✓	
7.	Curriculum equipped you with necessary technical skills required by the industry.				✓	
8.	The electives offered are in consonance with the technological advancements.				✓	✓
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.					✓

Any other suggestions to improve the curriculum:

There should be regular tests conducted by the dept to enhance technical skills. As skills are the demand of and sector 80% of the students prefer abroad for higher studies or do, very important students who are trying to come to Australia on 476 visa kindly please guide them about it.

Report 2016

- Most of the students have said that the syllabus is competent enough in the modern competitive era.
- Regarding the syllabus being properly sequenced almost every student was satisfied.
- The major section of students found that the syllabus was very well balanced between theory and practical.
- With respect to the course content being covered by corresponding reference books, nearly 85% marked it very good.
- Approximately 90 % of student showed that their interest in particular subject was generated with content of course or syllabus
- More than 83% of students have said that the course content of the subject has enhanced their knowledge and perspective.
- Whether the curriculum is equipped with necessary technical skills required by the industry, the 84% of students found the curriculum was helpful.
- Regarding the elective offered are in consonance with technological advancements nearly 80% agreed.
- The 84 % student showed that the practical course give them an effective hands on experience
- With the laboratory experiments, 93 % student found enhanced your understanding of the concepts and enabled them to relate theory to practice.

Students Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum.

Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell.

☒ B.Tech ☐ M.Tech. Program:

S.No.	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.			✓		
2.	The units/sections in the syllabus are properly sequenced.				✓	
3.	The curriculum has good balance between theory and practical.					✓
4.	Course content is covered by corresponding reference books/materials.			✓		
5.	The syllabus generated interest in the subject area.				✓	
6.	The course content of the subjects increased your knowledge and perspective.					✓
7.	Curriculum equipped you with necessary technical skills required by the industry.			✓		
8.	The electives offered are in consonance with the technological advancements.				✓	
9.	The practical courses give you an effective hands-on experience.				✓	
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.				✓

Survey Questions (Electrical Engineering Department)

Course Embedded Survey (Department)

e.g. Digital Electronics etc. Your responses to selected six selected 18 courses spread over various semesters of the degree programme.

Your answer:

1. How well you learn to apply knowledge and skills through this course?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

2.6) How you rate the opportunities provided to you to practice and apply important concepts for analyzing and interpreting data?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

2.8) Were the practicals correlated to theory lectures?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

4. How does the course find its role in multidisciplinary work?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

3. How much the course prepared you in providing technical solutions within the realistic constraints?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

5. Are you able to work through a process to solve problem through the course learnt?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

6. How much competent you consider yourself for professional and ethical responsibility with this course?
Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

7. How good are the opportunities provided by the instructor for questions and discussions during class time?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

8. How you rate your participation in some event related to societal issues by using your knowledge and skills?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

9. Are you stimulated to further investigate the subject matter?

1 for Yes and 0 for No

Your answer:

10. How do you rate the course in addressing the latest trends in technology?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

11. A) How well the course enhances your ability to use new techniques and modern engineering tools for engineering practice?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

11. B) How much the state of art technology is used for delivering lectures/practices?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

12. Does the course meet your expectations to help you learn to write a computing solution for a given problem using various techniques and engineering tools?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

13. Does the course meet your expectations in effectively integrating your knowledge to sustainable based solutions?

Rate from 1 to 5, 1 = lowest and 5 = highest

Your answer:

14. Any suggestions for the improvement of the program.

Teachers Feedback on Curriculum

Please mark a tick "✓" in the appropriate cell

S.No	Question	1	2	3	4	5
1	Syllabus is most current with respect to the recent advancements.				✓	
2	Aims and objectives of the syllabi are well defined and clear to teachers and students.				✓	
3	The books prescribed listed as reference materials are relevant and updated.					✓
4	The curriculum has good balance between theory and Lab.					✓
5	The course content of the subjects improved student's knowledge and perspective.					✓

Any other suggestions to improve the curriculum:

No change required

Your Details:

- Name: KAMALJEET KAUR
- Designation: Assistant Professor
- Specialization: Database
- Signature with date: 8 April 2016

Teachers Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the course. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S.No	Question	1	2	3	4	5
1.	Syllabus is need based with respect to the recent advancements.					✓
2.	Aims and objectives of the syllabi are well defined and clear to teachers and students.					✓
3.	The books prescribed/listed as reference materials are relevant and updated.					✓
4.	The curriculum has good balance between theory and Lab.				✓	
5.	The course content of the subjects improved student's knowledge and perspective.					✓

Any other suggestions to improve the curriculum:

laboratory hours can be increased.

Your Details:

- i) Name: **PARMINDER KAUR KADHWA**
- ii) Designation: **Assistant Professor**
- iii) Specialization: **operating system**
- iv) Signature with date: **8/4/16**

Report 2016

1. 89 % of the teachers have said that the syllabus is need based with respect to recent advancements .
2. Regarding aim's and objectives of syllabus, 86% of teachers answered that it is well defined and clear to teachers and students.
3. The 88% of teachers said that books listed as reference material are relevant and updated.
4. 92% agreed that curriculum has excellent balance between theory and practical.
5. 84% teachers agreed that the course content of subjects improved students' knowledge and perspective.

2015-2016

Alumni Feedback on Curriculum

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S. No	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum contribute towards finding solutions to real life/practical problems in industry through the use of technical knowledge?				✓	
3.	Does the curriculum involve reasonable practical and laboratory courses to inculcate skills for analysis and design?			✓		
4.	How do you rate the curriculum with respect to courses on professional ethics and behavior?				✓	
5.	How do you rate the curriculum in terms of developing written and oral communication abilities in students?				✓	
6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?				✓	
7.	Overall satisfaction for the current program in meeting its educational objectives.				✓	

Any Comments:

Computer Education must be ensured in subjects of civil Engg.

Alumni Feedback on Curriculum

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S. No	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum contribute towards finding solutions to real life/practical problems in industry through the use of technical knowledge?				✓	
3.	Does the curriculum involve reasonable practical and laboratory courses to inculcate skills for analysis and design?					✓
4.	How do you rate the curriculum with respect to courses on professional ethics and behavior?					✓
5.	How do you rate the curriculum in terms of developing written and oral communication abilities in students?				✓	
6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?				✓	
7.	Overall satisfaction for the current program in meeting its educational objectives.				✓	

Any Comments:

Soft skills and skill development classes should be there for students.

Survey (Electrical Engineering Department)

Alumni Survey

1.
1. How often do you apply knowledge of mathematics, science & engineering in your career?
Rate from 1 to 5, 1= lowest and 5= highest

2.
2. How do you find the study for analyzing & interpreting the problems in your career?
Rate from 1 to 5, 1= lowest and 5= highest

3.
3. How do you correlate the experimental study with your work?
Rate from 1 to 5, 1= lowest and 5= highest

4.
4. While designing a system, How often you consider social, economic, ethical and environmental spheres?
Rate from 1 to 5, 1= lowest and 5= highest

5.
5. How is your response working in multi-disciplinary teams?
Rate from 1 to 5, 1= lowest and 5= highest

6.
6. How effectively can you formulate engineering problems and find solution for the same?
Rate from 1 to 5, 1= lowest and 5= highest

7. **How competent are you in meeting your professional & ethical responsibility?**
Rate from 1 to 5, 1= lowest and 5= highest

8. **How well do you communicate ideas and coordinate for a project in a team?**
Rate from 1 to 5, 1= lowest and 5= highest

9. **How do you rate your work to provide engineering solutions to cope with economic, environmental, societal and global issues in your career?**
Rate from 1 to 5, 1= lowest and 5= highest

10. **Did you pursue any higher education or any specialised training after your graduation?**
Answer 1 for Yes and 0 for No

11. **How do you rate your knowledge of contemporary issues?**
Rate from 1 to 5, 1= lowest and 5= highest

12. **How well are you able to use new technologies/modern engineering tools?**
Rate from 1 to 5, 1= lowest and 5= highest

13. **To what extent do you meet expectations to model a problem as a computing system?**
Rate from 1 to 5, 1= lowest and 5= highest

14. To what extent do you meet expectations to integrate your learning to sustainable solutions?
Rate from 1 to 5, 1= lowest and 5= highest

15. Any suggestions for the improvement of the program.

Survey (Electrical Engineering Department)

Industry/Employer Survey

1.
1. How well prepared graduates are in terms of applying mathematics, science and engineering skills in solving organization's problems?
Rate from 1 to 5, 1= lowest and 5= highest
2.
2. How much you are satisfied with the practical skills of our graduates?
Rate from 1 to 5, 1= lowest and 5= highest
3.
3. How do you rate our graduates' ability in analyzing and interpreting data?
Rate from 1 to 5, 1= lowest and 5= highest
4.
4. How competent our graduates are to design system within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability?
Rate from 1 to 5, 1= lowest and 5= highest
5.
5. How do you rate the ability of graduates to work as a part of multi-disciplinary teams?
Rate from 1 to 5, 1= lowest and 5= highest
6.
6. How effectively graduates analyse and solve engineering problems?
Rate from 1 to 5, 1= lowest and 5= highest

7. **7. How much competent the graduates are in understanding professional responsibility and recognising the ethical dimensions of company's decisions?**

Rate from 1 to 5, 1= lowest and 5= highest

8. **8. How do you rate the graduates' soft skills in terms of expressing their ideas?**

Rate from 1 to 5, 1= lowest and 5= highest

9. **9. How do you rate the graduates' ability in understanding impact of engineering solutions in global, economic, environmental, and societal context?**

Rate from 1 to 5, 1= lowest and 5= highest

10. **10. Do graduates engage in continuous learning and keep themselves updated with the state-of-art technology?**

Answer 1 for Yes and 0 for No

11. **11. How do you rate graduates' ability of integrating awareness of current issues in implementing engineering solutions?**

Rate from 1 to 5, 1= lowest and 5= highest

12. **12. How do you rate the ability of graduates to use new techniques and modern engineering tools?**

Rate from 1 to 5, 1= lowest and 5= highest

13. **13. Do graduates meet the expectations in analyzing and developing practical solutions to workplace problems?**

Rate from 1 to 5, 1= lowest and 5= highest

14.

14. Do graduates meet the expectations in integrating their knowledge for offering sustainable solutions to the problems?

Rate from 1 to 5, 1= lowest and 5= highest

Students Feedback on Curriculum

The purpose of this form is to collect the views regarding various aspects of the curriculum. It is requested that you fill in the form and submit it to the concerned authorities for the improvement of the curriculum. The following questions are to be filled in by the students after completing the course.

Please mark a tick '✓' in the appropriate cell.

Program: B.Tech. M.Tech.

S.No	Question	1	2	3	4	5
1.	The Syllabus of the courses that you have studied synchronizes with the competencies expected out of the course.					✓
2.	The units/sections in the syllabus are properly sequenced.			✓		
3.	The curriculum has good balance between theory and practical.			✓		
4.	Course content is covered by corresponding reference books/materials.		✓			
5.	The syllabus generated interest in the subject area.			✓		
6.	The course content of the subjects increased your knowledge and perspective.			✓		
7.	Curriculum equipped you with necessary technical skills required by the industry.			✓		
8.	The electives offered are in consonance with the technological advancements.	✗	✓			
9.	The practical courses give you an effective hands-on experience.					✓
10.	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.	✓				

Any other suggestions to improve the curriculum:

Please introduce new practical subjects as per industry needs

10	The laboratory experiments enhanced your understanding of the concepts and enabled you to relate theory to practice.	✓				

Any other suggestions to improve the curriculum:

There was a teacher Mr. Rajendra who taught us a lot and an amazing teacher. She was not in the class, planned very well and helped us a lot. We had many other good teachers. We said we will not come back to the college. Teacher is good. This is a very good school. We are very happy.

Report 2015

- The majority of the students have said that the syllabus is competent enough in the modern competitive era.
- Regarding the syllabus being properly sequenced nearly 93 % were agreed.
- The major section of students found that the syllabus was very well balanced between theory and practical.
- With respect to the course content being covered by corresponding reference books , almost everyone marked it very good.
- Large number of student showed that their interest in particular subject was generated with content of course or syllabus
- More than 90% of students have said that the course content of the subject has enhanced their knowledge and perspective.
- Whether the curriculum is equipped with necessary technical skills required by the industry , the 85 % of students found the curriculum was helpful.
- Regarding the elective offered are in consonance with technological advancements nearly 83% agreed.
- The 89% student showed that the practical course give them an effective hands on experience
- With the laboratory experiments , 92 % student found enhanced you understanding of the concepts and enabled them to relate theory to practice.

Teachers Feedback on Curriculum

This questionnaire is intended to collect information regarding various aspects of the curriculum. The information provided by you will be used as an important feedback for improvement of the curriculum.

Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S.No.	Question	1	2	3	4	5
1.	Syllabus is need based with respect to the recent advancements.					✓
2.	Aims and objectives of the syllabi are well defined and clear to teachers and students.					✓
3.	The books prescribed/listed as reference materials are relevant and updated.					✓
4.	The curriculum has good balance between theory and Lab.				✓	
5.	The course content of the subjects improved student's knowledge and perspective.					✓

Any other suggestions to improve the curriculum:

Your Details:

- i) Name: JAGSIT KAUR
ii) Designation: Asst. Prof.
iii) Specialization: Fluid Mechanics & Machinery
iv) Signature with date:

Alumni Feedback on Curriculum

2014-2015

Dear Alumni,

It gives us immense pleasure to reconnect with you after a long time. We hope you have been doing exceedingly well in your career. We are confident that your stay with GNDEC has enabled you to imbibe the process of life-long learning and to take up challenging careers. We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

S. No	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum contribute towards finding solutions to real life/practical problems in industry through the use of technical knowledge?				✓	
3.	Does the curriculum involve reasonable practical and laboratory courses to inculcate skills for analysis and design?			✓		
4.	How do you rate the curriculum with respect to courses on professional ethics and behavior?				✓	
5.	How do you rate the curriculum in terms of developing written and oral communication abilities in students?					✓
6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?				✓	
7.	Overall satisfaction for the current program in meeting its educational objectives.				✓	

Any Comments:

Software must be shared with students regarding Civil Engg.

6.	Does the curriculum have ability to contribute in a process of continuous learning to meet the current job requirements?			✓		
7.	Overall satisfaction for the current program in meeting its educational objectives.			✓		

Any Comments:

More emphasis should be given on design/practical knowledge rather than theoretical knowledge. At least students should be able to design their own houses, if required.

We are sure you were sufficiently equipped not only to take on the real world but also to make it a better place to live, through responsible and innovative use of technology.

We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at GNDEC and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

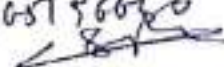

Please mark a tick '✓' in the appropriate cell

No.	Question	1	2	3	4	5
1.	The current syllabus is adequately updated from the one followed during your course of study.				✓	
2.	Does the curriculum has the ability to find solutions to real life/practical problems in industry through the use of technical knowledge?				✓	
3.	Does the curriculum have reasonable practical and laboratory skills for analysis and design?			✓		
4.	How do you rate the curriculum with respect to professional ethics and behavior?				✓	
5.	How do you rate the curriculum in written and oral communication abilities?					✓
6.	Does the curriculum has ability and will to engage in a process of continuous learning to meet the current job requirements?			✓		
7.	Overall satisfaction for the current program in meeting its educational objectives.				✓

Any Comments:

While seeing the curriculum, it is suggested that subjects covering topics like Network Security, Artificial Intelligence, Machine Learning, Cryptography and IOT be included in the curriculum.
