

BEST PRACTICES

Practice - 1

Title: One Semester Industrial Training

Objective: To prepare industry ready students.

Content

As is known that the learning is enhanced many times by doing rather than by just reading, this concept of six months industrial training was mooted to help the upcoming graduates adapt to industry seamlessly.

Training is undertaken after completion of 6/7 semesters in an industry of choice for a 6 month period.

Practice - 2

Title : Objective Evaluation

Objective:

To create measurability of the level of learning attained by the students

The Content

The outcome based learning is aimed at equipping students in higher education with higher order thinking skills.

It involves Formulating clear and objective course outcomes for each course and designing a question paper format which enables measuring the extent of learning with respect to course outcomes using revised Bloom's Taxonomy.
