

Delegation Report

IFAC Conference on Manufacturing Modelling, Management and Control (MIM 2013) was organized by Saint Petersburg State University held at Saint Petersburg, Russia from June 19-21, 2013. Approximately 380 papers were selected for oral presentation on different conference themes/areas. Delegated from around 65 countries participated in this conference from all over the world. On first day, six key note presentations were made by different academicians from all over the globe. We presented the research paper titled "Measuring the Utilization Index of Advanced Manufacturing Technologies: A Case Study" in the session "Theory and Applications of AHP and ANP for Decision Making in Manufacturing Systems-2" held on second day of the conference. Our research work was focused on: - to suggest the model for measuring the utilization index of advanced manufacturing technologies. On third day, 27 parallel sessions were held simultaneously at different venues in the university. This conference served as platform for me to interact with my community people coming from other part of the world.
