Sub: Wi-Fi Internet Connectivity

It is submitted that education now-a-days is totally dependent upon reliable and fast internet connectivity. In our college, we have wired and limited wi-fi connectivity to provide intranet and internet facilities. In Administrative and Academic buildings (MBA Block, PG Block, Admn. Block, Library, departments in Main Block) the intranet and internet facility is provided through wired network, whereas in Boys Hostel No.-1, 2 and Girls Hostel there is wi-fi network.

Initially, the wired network was designed when the college was having only 200 computers and intake of 500 students approximately. At that time, it was sufficient to meet with the need. But now with the advancement of technology, continuous increase in intake of Undergraduate and Post Graduate students and subsequent increase in number of Desktops, Laptops, other computing devices in the labs and offices, it has become the need of hour that the present Wired network may be re-structured to cater the huge expansion of computing resources. Moreover the students now a days have their own laptops, palmtops and other computing devices for which campus-wide wi-fi network is required. Even it has become essential due to autonomous status conferred by UGC, New Delhi and various conditions laid down for accreditation by the various agencies such as NAAC, NBA etc. Different type of data is demanded from the institution from time to time by various Govt. and NGOs for which fast and reliable internet connectivity is required.

It is being felt that existing network needs restructuring and expansion through wired and wi-fi technology. With this expansion, we will be in a position to provide internet facility in residential area, newly constructed hostel (Hostel No.5, 6 etc.) and other left out areas of the campus.

A || It is expected that the expenditure for this may be to the tune of Rs. 1.00 Crore approximately, which includes cost of equipment, laying of cable and installation/commissioning of hardware/devices.

For this purpose, it is proposed to constitute a technical committee, which will make a detailed study of existing infrastructure and propose optimum solution in terms of infrastructure and technology so that the current and future demand in the coming decade may be met.

For this purpose, following committee is proposed:-

- 1 Dr. Hardeep Singh Rai, Professor (CE)
- 2 Prof. Akshay Girdhar, Assoc.Prof.(IT)
- 3 Dr. K.S.Mann, HOD(IT)
- 4 Dr. Parminder Singh, HOD(CSE)
- 5 Prof. Ajay Shiv Sharma, Asst.Prof.(CP)
- 6 Director's Nominee... *Prof. J.S. Saini O/To CC*
- 7 Dr. Maninder Singh, Assoc. Prof., Department of CSE, External Expert (Thapar University, Patiala)

Submitted for administrative & financial approval. After submission of report by above committee, further steps will be initiated through the Central Purchase Committee.

The Director, GNDEC, Ludhiana

* This is the need of hour in view of 'X' above.
* The expenditure to be met from AF/DF & HOC/Exam.fund.

Recommendation for approval.
