Dear Sir,

This is for your kind information that I am pursuing PhD from Carleton University in Ottawa, Canada.

I am currently on Extra Ordinary leave which will finish on 30th April 2016.

Currently I am compiling my dissertation and will be defending my thesis by the end of this year. Additionally I will also be presenting part of my research at EASE 2016 (<http://ease2016.lero.ie/>) in June and awaiting reviews from Journal of Software: Evolution and Process. ([http://onlinelibrary.wiley.com/journal/10.1002/\(ISSN\)2047-7481](http://onlinelibrary.wiley.com/journal/10.1002/(ISSN)2047-7481)).

I am also the Web Chair of 27th International conference of Software Reliability Engineering to be held in Ottawa Canada in October 2016 (www.issre.net <<http://www.issre.net>>).

Since I am in the middle of finishing my research and I also have to present my research at the conference and defend my thesis, You are very kindly requested to extend my EOL till 31st December 2016.

I am attaching my application document with this email consisting of letter of recommendation of extension from my Supervisor Dr Yvan Labiche and my admission letter.

Kindly consider my predicament. I will be highly obliged.

Thank you and best regards,

Surjit Kaur Khalsa

Subject: Extension of Extraordinary leave for completing PhD Degree at Carleton University, Ottawa,
Canada

Sir,

With due deference, it is intimated that I am pursuing my PhD at Carleton University, Ottawa, Canada since January 2012. For the above said purpose, I was granted extra ordinary leave for three years vide letter no: SS/E 2778 Dated 25/10/2011 from 11/12/2011 to 10/12/2014. This leave was further extended from 10/12/2014 to 30/04/2016 which was communicated to me via email dated 26/02/2015.

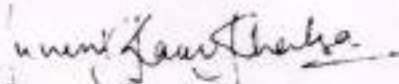

It is for your kind information that I am nearing completion of my PhD program and will most likely defend my thesis by the end of this year (2016). Currently I am writing my dissertation and wrapping up my research while at the same time disseminating it through conferences and journals. I will be presenting a part of my research in EASE 2016 (http://ease2016.lero.ie/?page_id=187) at Limerick, Ireland in June, 2016. I have also communicated my research work to the Journal of Software Evolution & Process and am awaiting reviews. Currently I am writing a second journal paper. Besides research, I am the Web Chair for the 27th International Symposium on Software Reliability Engineering to be held in Ottawa Canada in October 2016 (<http://issre.net/organising-committee>). This conference is ranked A by Australian research council for research evaluation and is renowned in the field of Reliability engineering.

As is evident, at present, my research work is in full swing which is nearing completion. I will be visiting Ireland in June and later this year will be involved in organising International conference in Ottawa, Canada. This will be followed by defending my thesis by the end of this year. Considering my predicament and the schedules I kindly request you to extend my Extra Ordinary Leave (EOL) by eight months i.e., from 1st May 2016 to 31st Dec 2016 which will facilitate me in my PhD degree. I am also attaching my admission letter for PhD program and letter of recommendation for extension of leave by my supervisor Dr. Yvan Labiche to further emphasize on my predicament. I shall be highly grateful to you.

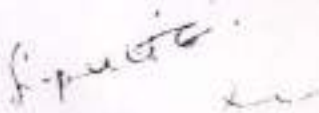

Thanking You.

Yours faithfully,

Re: Letter of recommendation for extension of leave

To whom it may concern,

Sunint Khalsa has made great progress in her Ph.D. research in the last year. One tangible result is that she will be presenting one part of her Ph.D. thesis work, a paper entitled "The power of Single and Error annotations in Category Partition Testing: An Experimental Evaluation," to the 20th International Conference on Evaluation and Assessment in Software Engineering (EASE) taking place in Ireland, June 1-3 2016. This conference is ranked as "A" in the Excellence in Research for Australia (ERA) journal & conference rankings developed by the Australian Research Council for research evaluation purposes. In this ranking, conferences are ranked in three (A, B, C) categories. In short, a tier A conference is of "high or very high quality", a tier B conference has "a solid, though not outstanding, reputation", and tier C conferences "are those where quality, peer reviewed papers are presented." (Some journal and conference venues do not satisfy the set criteria to be in those categories.)

Part of Sunint's work that she presented at the IEEE high Assurance Systems Engineering conference in January 2016 was selected for submission, in an extended form, to the Journal of Software: Evolution and Process, a renowned journal in the field. Only select conference publications have this recognition. This journal contribution has now been submitted.

Academically, Sunint has completed her course work with great success and passed her comprehensive exams (major and minor topics). We are planning to hold her Ph.D. proposal before the Summer 2016 and her thesis defence could take place before the end of 2016.

I therefore strongly support Sunint Khalsa's request for an extension of her leave of absence until December 2016.

Encl: 1. Application
2. Report of Scrutiny Committee.

The application of Dr. G.S Brar for attending an international conference at Vancouver (Canada) was scrutinized. Following is the report.

1. The conference is being organized by a reputed international society (i.e. ASME) where the researchers from various parts of Globe are expected to share their research outcomes. The candidate may explore the opportunities to share and enhance the research being conducted by him in the institution.
2. The topic is very relevant and is related to the research area of the candidate.
3. The period during which the conference is being held falls in summer vacation. Therefore academic work of the department shall not suffer if he is allowed to attend the conference.
4. All the documents attached with the application were found to be in order.
