

REPORT

SPFU Haryana organized a two day workshop on "**Environmental Management Framework (EMF) and Procurement**" this June from 18-19 June, 2014 at Haryana Niwas, Chandigarh. We were nominated to attend this workshop. The main objective of this workshop is to setup and asses the Environmental Management Framework inside the college premises while opting the development of institution (especially in case of civil works). Various Government and Private Institutes and Centrally Funded Institutes from North Region participated in this workshop. SPFU Punjab and SPFU Pondicherry also participated in this workshop.

First day of the workshop was focused especially on practices to be followed for sustainable development of institution without letting environmental quality degraded. Second Day of Workshop was focused on the discussion session regarding the various issues, problems being faced while working with Procurement and Procurement Management Support System software (PMSS Software). Mr. Prashant Garg and Ms. Rupali Jha from NPIU resolved the queries asked by the representatives of various Institutes.

Discussion Session was quite interesting and helped to resolve many doubts of the participating institutes and thus lead to some constructive suggestions too. This workshop was good initiative by NPIU in coordination with SPFU Haryana that led to quite effective discussion sessions.
