

I attended a workshop on “Advances in Energy Engineering and Technology” held at Mechanical Engineering Department at IIT (BHU) Varanasi from June 28-30, 2013. My paper titled “A Review of Daylight Illuminance and Window Design in Buildings” was accepted in the workshop. There were 23 papers presented in the workshop along with expert talks in the field of energy engineering. I presented my paper on June 29, 2014. The contents of the paper were well appreciated by the session chair and the audience.

I thank TEQIP cell GNDEC Ludhiana for sponsoring me for attending and presenting my paper in the workshop.

Harmeet Singh
(Associate Professor)
Deptt. of Mech. Engg.
