

**National Conference on “Recent Trends in Power System  
and Energy Management” (RTPSEM-2014), IET Bhaddal,  
28-29 Mar., 2014**

I have attended the National Conference on “Recent Trends in Power System and Energy Management” (RTPSEM-2014), which has been held at IET Technical Campus, Bhaddal, during 28-29 March, 2014. I have delivered an expert talk on “PRDS Bidding as a Mean for Congestion Management in Deregulated Electricity Markets”. I have also been invited to chair a session on Power Electronic and Devices. This conference was highly beneficial for academicians, technocrats and budding researchers.
