NISP Implementation: Stakeholders Meeting

A meeting of stakeholders for NISP was held in Consultancy hall in blended mode. Over 42 students (30online, 12 offline) and six faculty members attended the meeting. The action plan for NISP implementation was shared with the stakeholders. The following were the main points that emerged from meeting:

1. Wider Publicity to adoption of NISP at Institution level is required.
2. Entrepreneurship cell should work in tandem with IC for organizing the events.
3. Students should be motivated to join the entrepreneurship cell.
4. Seed funding guidelines need to be publicized.
