

Report

I attended and presented a paper at the Congress on Economy, Finance and Business (CEFB) held in Bangkok from 6-8 November, 2013. The conference was organized by National Taipei University of Technology. The paper was titled 'State of Tourism Industry in Punjab (India): A case study'. The aim of the conference was to offer a forum for eminent scholars and well-known professors to meet and discuss the cutting-edge researches on economy, finance, and business. It was believed that in depth interactions at such academic meeting will be the cradle of innovation. The research scholars pursuing research presented their findings and were subjected to peer scrutiny. The conference was able to achieve these objectives. The networking opportunities provided at the conference helped gain insights into research directions globally. The paper presented by me at the conference was appreciated and generated a stimulating discussion. I thank the TEQIP-11 cell for funding my visit and helping me get international exposure.
