

REPORT

National conference on Inter – Disciplinary Research in Engineering, Technology and Management was held at Global Institutes of Management and Emerging Technologies, Amritsar, Punjab from December, 17 to 18, 2014.

The National conference is a premier conference that focuses on today's technical challenges, research updates and breakthrough innovations that are shaping the future of engineering. The conference convenes engineers, scientists and technologists of all disciplines for the purposes of exploring solutions to global challenges and for the advancement of engineering excellence worldwide.

I participated and presented the paper which was titled “Mechanisms of Abrasive Wear and its Remedy through hardfacing” in the session Thursday, December 18, 2014 from 12.30 PM to 2.30 PM. There were seven more presenters in the session. All gave presentation for 15 minutes and five minutes were kept for discussion.

I thank TEQIP-II cell for funding my visit and helping me get international exposure.

Rupinder Singh
(Asstt. Prof.)
Dept. of Mechanical Engineering
