

**REPORT OF ONE WEEK COURSE TITLED "FINANCIAL MANAGEMENT" ATTENDED AT I.I.T. , NEW DELHI HELD BETWEEN 17-21 AUG' 2015**

The course provided greater insights into the real practices in the business world from the perspective of financial management. The sequence and depth of the topics chosen was well planned and offered a smooth learning. The experts had a vast practical experience in their respective areas and could therefore deliberate on the topics in a very lucid manner. The queries from the participants were handled with great competency. The depth of coverage may have been increased if the participants were of homogeneous composition although inspite of hetrogeneity appropriate detailed discussions took place during the course of the programme. The topics discussed included Accounting principles and Financial Management. Ratio Analysis, Break even analysis and profit planning, relavant costs and decision making, capital budgeting decisions, foreign exchange market, life cycle costing & working capital management.
