Module: 2 Finite Element Formulation Techniques (04)

Lecture 3: Finite Element Method: Displacement Approach (Page:11-16)

2.3.1 Choice of Displacement Function

2.3.1.1 Convergence criteria

2.3.1.2 Compatibility

2.3.1.3 Geometric invariance

2.3.2 Shape Function

2.3.3 Degree of Continuity

2.3.4 Isoparametric Elements

2.3.5 Various Elements
